In addition, we have a computer lab that provides our students with the opportunities to use computer based programs such as Study Island and other computer based programs to strengthen our instructional programs.

By using the technology, and research based instructional strategies, McDonald Green Elementary has allowed the students to be actively engaged in their learning. McDonald Green Elementary continues to use fiction and nonfictional literature, the Arts through differentiated instruction, and in-school field trips such as gem mining, animal dissection and the Living Museum to increase the school's core curriculum.
